

# DRINKWARE

## STEMWARE & TUMBLERS

*The presentation of a beverage is as important as its consistency, taste, and aroma. The aesthetic appeal of the glass design attracts the eye and prepares the palate for a delicious drink. Glasses particularly designed according to the various types of drink create a more delicious, hence enjoyable, tasting experience. For some drinks, a glass with a full round bowl that reveals the aroma is desirable; while for others, a narrow-styled glass is more suitable. With its designs ranging from classic to modern and its wide product range, Paşabahçe augments the pleasure of drinking.*

## KADEHLER ve BARDAKLAR

İçeceklerin sunumu, en az içeceklerin kıvamı, lezzeti ve kokusu kadar önem taşır. Tasarımdaki estetik, göz zevkine hitap ederek damağı lezzetli bir içime hazırlar. İçeceğin türüne uygun olarak tasarlanan kadeh ve bardaklar içimi daha lezzetli ve keyifli hale getirir. Bazı içecekler için aromayı ortaya çıkaran geniş gövdeli bardaklar uygunken, bazı içecekler içinse ağız kısmında genişleyen ince bir cam kadeh uygundur. Klasikten moderne uzanan tasarım çizgisi ve geniş ürün yelpazesıyla Paşabahçe, içim keyfini artırıyor.

**FROM BLUES TO PURPLES**

Butterfly pea vine flowers (Clitoria Ternatea), which grow in Asia's tropics, were utilized in traditional Ayurvedic medicine to relieve stress and anxiety. Furthermore, recent research has shown that this flower is high in antioxidants. Butterfly pea flowers have a dazzling blue hue and have been commonly used in South East Asian cuisine as a natural food coloring. When an acidic liquid, such as lime, is introduced, the deep blue color changes to a brilliant purple tint due to the changing pH level. This change has made this flower prominent in the realm of cocktail-making in recent years. Clitoria Ternatea allows you to achieve the colors and tones primarily obtained with artificial colorants. It takes presentations to the next level, especially when paired with forest fruits.

## PRINCIPLES OF DECORATION

There are no hard and fast rules about how drinks should be decorated, but in general, short drinks need less embellishment than long ones. The standard rule of thumb is to keep the cocktail's decoration simple, bright, and energizing without going overboard. There should be a connection between the glass, the color of the mix, and the ingredients. However, ingredients that have nothing to do with the recipe can still be used. The key is to maintain a sense of harmony and originality.

## MOCKTAILS FOR ALL

It turns out that great drinks can be made without alcoholic ingredients. You can indeed whip up mixed beverages that rival the quality of a specialty cocktail. If you're hosting a party this summer, but it's going to be scorching outside, mocktails are the way to go. Mocktails made from watermelon are visually appealing and delicious. The best part is that most recipes only call for a handful of inexpensive, readily available ingredients. The only things you'll need to make a watermelon cocktail are a couple of limes, a bottle of tonic, some fresh mint, and some ice.

## SLEEPY MOON

Lavender milk, also known as lavender moon milk, is a blend that has been flavored with lavender, chamomile, vanilla, ashwagandha, and just a touch of honey. The practice of consuming moon milk in India to benefit from its therapeutic qualities extends back hundreds of years. This creamy herbal combination is calming, which makes it excellent for anxiety and sleep problems—even more of a justification to incorporate a glass of this soothing lavender milk into your pre-bedtime routine.

### HANGOVER REMEDY

Ayran is a sour drink made from yogurt, water, and salt. Turkey and its neighbors are major consumers. It is the most frequently ordered drink in Turkey, and is only surpassed in popularity by food. In the West, yogurt is typically associated with sweetness, so it can take some getting used to. However, once you do, you'll be hooked. Ayran is an excellent hydration drink because it balances the body's fluid and electrolyte levels. When temperatures soar, it's a necessity. In addition to these benefits, ayran increases stomach secretory activity and reduces the reproduction of harmful intestinal microflora. Ayran is widely used as a hangover remedy. Herbs such as thyme, oregano, and mint, whether fresh or dried, can be added to improve both the taste and health benefits.

### A HEALTHY MILKSHAKE

Milkshakes are not the healthiest dessert option. A usual serving typically has 600 calories and 20+ grams of sugar. Saturated fat is another source of concern. So making your own with substitute ingredients is the healthiest way to enjoy a milkshake. One cup of skim milk has only half a gram of fat. Fat-free Greek yogurt has lower sugar than most other yogurts, and is a great way to add creaminess. Fruit is nature's candy, but not all fruits are equally sweet. Prefer berries and grapefruit instead of bananas and grapes. The toppings are an integral part of the milkshake's appeal. A variety of healthy substitutes for whipped cream can be made with coconut, cashew, and low-fat milk. Also, for a healthier topping, try chopped nuts or seeds.

## A RELIABLE PARTNER

*Despite the fact that tea can be enjoyed on its own at any time of the day, this does not make it a loner. To the contrary, tea excels as a trustworthy companion to breakfasts, brunches, and sweet treats, enhancing them in ways you might not have expected.*

## shades of tea

There are many different tones of brewed black tea, which can be characterized as light, dark, clear, dull, or cloudy. A light and clear brew does not necessarily indicate a weak or low-quality tea. Even in the best of teas, the color can be pretty mild. A high brilliance is required for a dark red brew to be considered high-quality tea. With this wide range of rich reds, Black tea -when properly brewed and served in the appropriate glass vessels- not only enhances the tastes of your food on the table but also the table itself.

## coffee break

## FOR A PURE EXPERIENCE

Unlike plastic or metal, glass does not retain flavors and is simple to clean. This ensures that the only thing you'll smell while sipping your freshly brewed coffee is the coffee itself, not any lingering odors from previous use of the cup. You will get a better look at the crema on your espresso or watch your coffee brew directly into your glass. In addition to all the other blessings, glass mugs are better for the environment and more sustainable because they can be completely recycled if an accident occurs in the kitchen.

## THE PERFECT COUPLE

Fresh peas take so long to reach the grocery store that enzymes convert the sugars into starch, making them taste mealy unless you have a garden and can eat them straight out from the plant. Freezing peas within hours of gathering retain their sweetness, freshness, and vibrant color. Peas are fun, healthy, and versatile ingredients. If you have frozen peas on hand, you can whip up a pot of healthy, nourishing soup in under 30 minutes with just a few simple ingredients.
